

Help Oregon Students **Achieve Success**

The State Library of Oregon provides schools with free access to *PrepSTEP® for High Schools* and *LearningExpress Library®*, two easy-to-use platforms from EBSCO LearningExpress. Whether students are planning to attend college, join the military, or enter the workforce, they'll find practice tests, tutorials, e-books, articles, and flashcards to help them achieve their goals.

The two platforms at-a-glance:

PrepSTEP for High Schools

- Narrower scope of *LearningExpress Library's* resources, focused on topics most relevant to high school students
- College admissions test prep, **Career Exploration** tools, and **High School Success Skills** tutorials on studying, organization, time management, and information literacy
- Integration with Canvas, Blackboard, and Brightspace learning management systems, which allows teachers to assign practice tests and tutorials and to monitor students' progress (option requires initial setup by EBSCO for your school)

LearningExpress Library

- Broader scope of resources in **Adult Core Skills** and **School Center** to help patrons of all ages improve math, reading, and other core skills
- **Career Preparation** tools including practice tests for occupational license exams and **Personal Success Skills** resources to support the development of organizational skills, workplace habits, media literacy, and financial literacy
- No integration with learning management systems, which means teachers who want to assign content must rely on students to report individual progress

Please see the back of this flyer for a detailed list of resources.

PrepSTEP for High Schools
